Movement

The player can move freely up and down and from left to right.
Usually ZQSD on an AZERTY keyboard layout

Shooting

The player aims with the mouse; the mouse pointer fires bullets with each click. If the weapon runs out of bullets, it will have a reload time before it can fire again.

Reloading

A weapon can't shoot while reloading.

Health & Damage

The player has health points. Player and enemies can dealt damage to their proper enemies.

Death

Enemy : When the enemy's health points are at 0. The enemy stop moving, get a death animation, doesn't have collisions anymore , but the body is still there with a proper dead body style.

Player should get a death animation and should return at the menu to restart a new game.
